

We Care Together!

St. Maarten Medical Center

CLINICAL MIDWIFE

St. Maarten Medical Center (SMMC) is looking for clinical midwives immediately. We are looking for enthusiastic obstetricians for the period from December 15, 2018 to April 1, 2019, which can be used for at least three weeks consecutively. The vacancy offers a unique opportunity to practice the trade on one of the most beautiful islands in the Caribbean.

The Department of Obstetrics and Gynecology has 2 delivery rooms, 1 double contractions room and 12 beds. There are 500 deliveries per year. On St. Maarten, English is the official language. In addition, a lot of Spanish is spoken.

Job description:

In this position you provide obstetric care during pregnancy, birth and childbirth in a clinical setting and under the responsibility of the gynecologist. The emphasis will be on supervising the birth. We offer an independent function at an inspiring workplace.

Job requirements:

You have a Dutch diploma Obstetrics, you are registered as a BIG and preferably have an additional master's program as a Clinical Midwifery. Relevant (clinical) work experience in the Netherlands is a must. You are an enthusiastic midwife and find it a challenge to practice the profession outside your familiar environment. A completed ultrasound program is an advantage. Quality, hospitality and service are of paramount importance and you are used to working independently and in a professional team. You act accurately, you are stress resistant and flexible. Your communication skills are excellent and you have a good command of the English language. You have a driving license.

Working conditions:

A salary appropriate to the position will be offered. The journey, house and transport are taken care of. A fascinating work environment with a lot of independence in a tropical environment is included.

Information:

Do you recognize yourself in this position? Then send - preferably before 15 December—your CV and motivation to Hester Versleyen via email Hester.Versleyen@smmc.sx.

For more information about the position, please contact mw. dr. Patricia Roumans, gynecologist, via email: Patricia.Roumans@smmc.sx or mw. Hester Versleyen, project officer, via email: Hester.Versleyen@smmc.sx.

Sint Maarten Medical Center (SMMC) is an ambitious and growing hospital organization on Sint Maarten. With more than 300 employees, 24 medical specialists and a capacity of 66 beds, we continuously strive to provide safe, highly qualified care. SMMC primarily provides the population of Sint Maarten, St. Eustatius and Saba.

The population consists of approximately 60,000 people and represents a multicultural mix of more than 100 different nationalities. In addition, we provide care to the tourists present, including more than 2 million cruise ship tourists per year. The SMMC will develop into a leading medical institute in the Caribbean in the coming years and has recently started the construction of a new hospital building to meet the increased demand for care of the residents of St. Maarten, its visitors and the surrounding islands. The new hospital building will be operational in 2022.
