

St. Maarten Medical Center

VACANCY: OB/GYN Nurse (RN)

St. Maarten Medical Center (SMMC) is an ambitious and growing hospital organization on St. Maarten. With more than 425 FTE's, 28 Specialists and a capacity of 80 beds, we continuously strive to ensure safe, quality health care. Our primary service area of St. Maarten, Statia and Saba, represents a total population of approximately 60.000 people, constituting a multi-cultural mix with more than 100 different nationalities. In addition, we also offer health care services to the two million visitors annually. SMMC has started the construction of the new St. Maarten General Hospital (SMGH) to expand its services in order to accommodate the increased care demand of the people of St. Maarten, its visitors and neighboring islands. The new hospital is planned to be operational in 2026.

Your Profile:

As an **OB/GYN Nurse** at SMMC, you provide professional nursing care and coordinate patient care for our Obstetrics & Gynecology patients. You utilize established nursing processes to provide optimal care within the general guidelines and predetermined service levels of the hospital. You are enthusiastic with excellent interpersonal skills, positive, flexible, and are willing to actively contribute to the daily operations of our establishment and the ongoing development of our organization.

What We Offer:

At SMMC, we offer you the opportunity to work at in a dynamic, fast-paced environment with an enthusiastic team of qualified professionals. You'll embark on a full-time role within our expanding organization with many opportunities for personal and professional development.

Requirements:

- A Registered Nurse (RN) diploma/MBO level 4 and a specialization in OB/GYN or experience in working on an OB/GYN ward;
- A diploma in maternity care and experience in labor and delivery or midwifery is an asset;
- A Basic Life Support (BLS) certification;
- Knowledge of OB/GYN work processes;
- Being patient-centered with excellent communication skills and a high level of integrity;
- Proficiency in English; knowledge of an additional language is a plus.

Tasks:

- Conduct nursing assessments of patients' physical, psychological, and social well-being and needs upon admission and at regular intervals;
- Monitor and observe patients and provide high quality patient care, including the creation of daily plans and the evaluation and modification of planned care;
- Carry out basic and advanced technical nursing procedures within professional standards and evaluate the effectiveness of care provided by comparing patients' responses and observable outcomes;
- Assist doctors with rounds, medical examinations, treatments, and carry out doctors' orders to completion;
- Answer questions, guide, and instruct patients and their family to achieve favorable patient outcomes.

Interested?
