

St. Maarten Medical Center

VACANCY: *Intensive Care Unit Nurse (RN)*

St. Maarten Medical Center (SMMC) is an ambitious and growing hospital organization on St. Maarten. With more than 425 FTE's, 28 Specialists and a capacity of 80 beds, we continuously strive to ensure safe, quality health care. Our primary service area of St. Maarten, Statia and Saba, represents a total population of approximately 60.000 people, constituting a multi-cultural mix with more than 100 different nationalities. In addition, we also offer health care services to the two million visitors annually. SMMC is constructing the new St. Maarten General Hospital (SMGH) to expand its services in order to accommodate the increased care demand of the people of St. Maarten, its visitors and neighboring islands. The new hospital is planned to be operational in 2026.

Your Profile:

As an **Intensive Care Unit (ICU) Nurse**, you work closely with specialists and other providers to deliver intensive and critical care to our patients. You are well-versed in evaluating intensive patients, administering medications, recognizing complications and coordinating with other members of the critical care team. You are an enthusiastic team player with excellent interpersonal skills and willing to actively contribute to the daily operations of our establishment and the ongoing development of our organization while providing exceptional patient care.

What We Offer:

At SMMC, we offer you the opportunity to work in a dynamic, fast-paced environment with an enthusiastic team of qualified professionals. You'll embark on a full-time role within our expanding organization with many opportunities for personal and professional development.

Requirements:

- A Registered Nurse diploma/MBO level 4 with a specialization in ICU;
- A minimum of at least one (1) year of experience as an ICU Nurse is required;
- Knowledge of work processes on the ICU ward and specific knowledge of interpreting and treating abnormal ECGs, arrhythmias, blood gasses, and ventilator care;
- Basic Life Support (BLS) and Advanced Cardiac Life Support (ACLS) diploma is necessary for CPR;
- Being patient-centered with excellent communication skills and a high level of integrity;
- Working proficiency in English; knowledge of an additional language is a plus.

Tasks:

- Conduct nursing assessments of patients' physical, psychological, and social well-being and needs upon admission and at regular intervals;
- Monitor and observe patients and provide high quality intensive care, including the creation of daily plans and the evaluation and modification of planned care;
- Carry out basic and advanced technical nursing procedures within professional standards and evaluate the effectiveness of care provided by comparing patients' responses and observable outcomes;
- Assist doctors with rounds, medical examinations, treatments, and carry out doctors' orders to completion;
- Answer questions, guide, and instruct patients and their family to achieve favorable patient outcomes.

Interested?

For more information, contact our Human Resource Department at +1 (721) 543-3154 ext. 201 or 203. Your motivation letter and resume can be submitted to the HR Department via careers@smmc.sx. A copy of both should be submitted to the Labor and Social Affairs Dept. located on Soualiga Road #1, Philipsburg, St. Maarten.
